

# FIREMAT synthetic

# TECHNICAL MATTING / FIRE RESISTANT

### **FEATURES**

Fire resistant and low, translucent, and non toxic smoke emission matting qualities.

Reaction to fire and smoke characteristics Bfl s1, following EN 13501-1. Circular studs.

### **APPLICATIONS**

Suitable for:

- public or industrial area where fire protection is required (airports, supermarkets, swimming pools, sports halls, etc.)
- mass transport (bus, railway, ships, underground,etc.)

### **ADVANTAGES**

- Fire-retardant.
- Low reduced emission of smoke opacity, for easy finding of emergency exits
- Thermal and acoustic insulation
- Excellent walking and standing comfort
- Non-slippery
- Easy to clean and low maintenance
- Noise, vibration, and cold propagation reduction

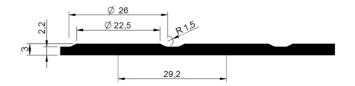

## **BENEFITS**

- Safety
- Cleanliness, hygiene
- □ Comfort
- Service life

# MECHANICAL, PHYSICAL AND CHEMICAL PROPERTIES

|                     | Measured characteristics | Standard     | Value         |         |
|---------------------|--------------------------|--------------|---------------|---------|
| MECHANICAL          |                          |              |               |         |

### IDENTIFICATION

| Branding  | Without.   |
|-----------|--|
| Back face | Buffed.  |
| Packaging | Rolled on cardboard tube Ø 80mm.   |
| Wrapping  | Black polyethylene film.   |
| Labelling | Self-adhesive label indicating product name, dimensions, area in m², nominal weight, and product code to allow product traceability. |

Unless typographical error, information and figures of our technical datasheet are based on our experience and laboratory tests according to international standards. This data is intended to be used as a guideline only. Material performance depends on the conditions of use and the final application.

Other colours are available under request.

Depending on the manufacturing process there could be differences in some tonalities of the roll colours.

Colours of the sample kits and catalogues has to be considered as indicative.
