

# PULSOR ASSEMBLY

## CONSTRUCTION & INFRASTRUCTURE

Concrete pump and placement

### APPLICATIONS

- High pressure concrete pump hose for boom transfer, placement.
- Pneumatic discharge of cement and minerals.
- Pumping of slurry and drilling mud (not oil-laden).
- Grouting of mortar, cement, or concrete.

### ADVANTAGES

- Very high resistance of the hose gives extended service life.
- Flexible, easy to handle.
- Robust construction to withstand heavy compressive loads and guarantee maximum safety.
- Construction eliminates kinking and allows easy cleaning by reverse pumping.
- Safety factor 2:1.

### TECHNICAL DESCRIPTION

Inner tube: abrasion resistant NR, black, smooth.

Reinforcement: two steel cords plies for ID 51mm, four steel cords plies for other diameters.

Cover: abrasion and weather resistant NR, black, fabric impression.

Temperature range: -30 °C to +80 °C.

### COUPLINGS/FITTINGS

All the end fittings are nitrided steel and zinc plated.

### COMPLEMENTARY INFORMATION

PSV = Putzmeister, Schwing, Victaulic.
