

PERFORMER CERAMIC

APPLICATIONS

Hydraulic suction or discharge of highly abrasive material.

ADVANTAGES

- At least 10 times longer lifespan compared to a rubber
- 4 to 5 times more flexible than market standard ceramic
- Quick and easy installation:
- Hoses can be cut to length on site without specific
- Very easy BLOC-END® coupling installation.
- 30 to 60% lighter weight compared to market standard ceramic hoses.

TECHNICAL DESCRIPTION

Inner tube: Al203,92% ceramic tiles embedded into a NR tube, black.

Reinforcement: synthetic textile with embedded steel helix.

Cover: weather resistant EPDM, black, corrugated, fabric impression.

Temperature range: -30°C to +70°C.

COUPLINGS/FITTINGS

Hoses are fitted with BLOC-END® and must be used to the following maximum working pressure:

ID≤150mm: 10bar,

ID>150mm:

10bar for static application (no hose movement, no water hammer, no traction) and/or temperature max <40°C, 5bar for dynamic application and/or temperature >40°C.

COMPLEMENTARY INFORMATION

Hoses are manufactured and delivered in custom length.
